

Martin Githinji

Front-End Developer | React.js & Angular

Passionate and detail-oriented Front-End Developer with hands-on experience creating responsive, high-performance, and user-focused web applications. Skilled in React.js, Angular, JavaScript, and modern UI frameworks, with a strong understanding of HTML5, CSS3, and responsive web design principles. Adept at collaborating in multidisciplinary teams, conducting peer code reviews, and adapting quickly to new tools and workflows. Dedicated to delivering exceptional UI/UX experiences that delight end users and meet business goals.

WORK EXPERIENCE

KADE, Remote – Full-Stack Developer (part-time)

Jun 2024 - present

- Developed and maintained responsive, cross-platform web applications using React.js and modern JavaScript tooling.
- Reduced system downtime by 30% through debugging and reliability improvements.
- Collaborated closely with designers and backend developers to build RESTful API-driven solutions with a focus on usability and scalability.
- Deployed features via CI/CD pipelines with automated testing.

Davis & Shirtliff, Nairobi, Kenya – Sales Engineer

Jul 2021 - present

- Collaborate with clients to understand technical requirements, designing and proposing tailored solutions that enhance customer satisfaction by 25%.
- Provide exceptional technical support, resolving 90% of client issues during initial interactions to ensure seamless product adoption and build long-term trust.

Upwork, Remote – Freelance Front-end Developer

Jan 2021 - May 2024

- Delivered 100% on-time client projects, optimizing performance (reduced load times by 40%).
- Built single-page applications (SPAs) with React.js and AngularJS, focusing on UX and accessibility.
- Modernized CMS-based websites (WordPress, Statamic) with custom PHP themes and plugins.
- Modernized legacy interfaces, improving maintainability and scalability.
